RECOGNITION CRITERIA

To be recognized as a Greener Greenspace, the site must be intentionally cared for in ways that:

- Increase biodiversity and support plant health
- Improve soil health and protect air and water quality
- Take steps to minimize waste and energy consumption
- Avoid the use of synthetic fertilizers and pesticides

Please describe efforts over the past year to support the biodiversity and ecological health of the site and what results you've observed.

Has the greenspace expanded in size or scope? Are there any new features?

In the past year, have additional actions been taken to minimize resources, reduce waste and minimize the ecological footprint? If so, please describe.

Have new community partnerships developed over the past year in relation to the greenspace? If so, please describe.

How has the wider community benefited from the greenspace in the past year?

GREENER GREENSPACE RECOGNITION

What impact, if any, did receiving the Greener Greenspace recognition have on the greenspace, the wider community or the people who are activity involved in caring for the site?

How can SOUL further support your work and promote your efforts?

Please provide any other comments or feedback on the experience of receiving a Greener Greenspace recognition and engaging with SOUL. Your feedback is important to help us improve the experience.

NEXT STEPS
